

Xtd Brief

A Guide to Identifying Bots & State, NGO & Pharma Funded Trolls or “Countermeasures to Missinformation, Disinformation & Vaccine Hesitancy”

Small Bot Farm

Medical Freedom X accounts are riddled with Bot followers. They are used to tag your account in your post replies. If you use trigger words, your account will be swarmed with bots, and your post maybe Negatively community noted by a bot. Often leading to account suspension.

Xtd infested accounts will have glitchy spaces and other issues. You must manually go through your account and BLOCK the bots. Or you can hire a service to do it. 5G warefare is real, and you must deploy countermeasures.

Industrial Bot Farm

An indication of the scope, now imagine how big the Military and Intelligence Agency Bot farms are.

The government spent over \$11 BILLION to combat “vaccine hesitancy. They have spent next to nothing to help the injured. [@COVIDSelect](#)

Replying to @MdBreathe @COVIDSelect and @RepMTG

It's infuriating. This is what they have paid to date for COVID vaccine injuries. The amount is insulting and only ELEVEN people have been “compensated”

Anaphylaxis	\$2,020
Myocarditis	\$1,583
Myocarditis	\$1,033
Myocarditis	\$3,958

Examples of Fake Accounts

Periodically do a X search of forms of your name to find fake accounts impersonating you.

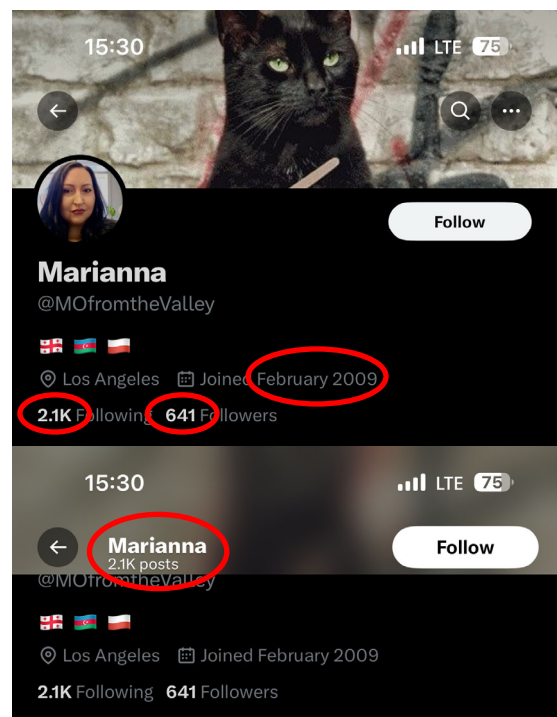

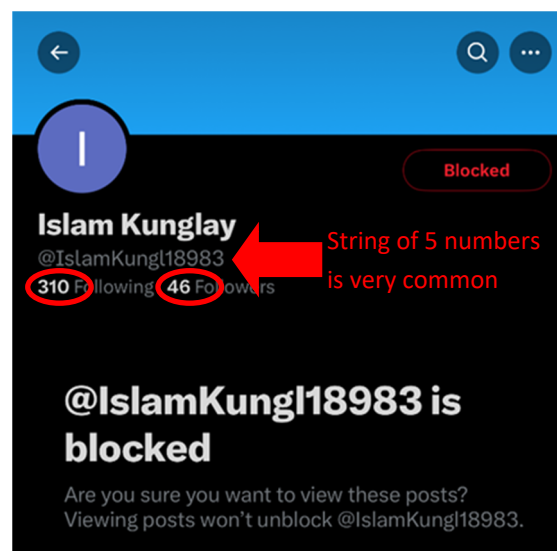

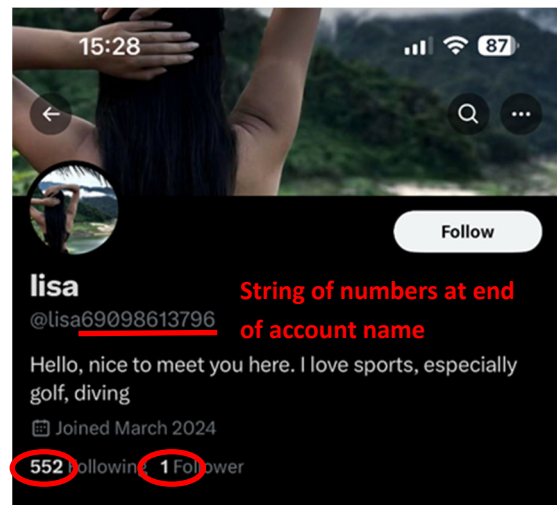

Report and block fake accounts. Tell your followers to do the same with a link to the acct.

Sex Bots & Porn Accounts

Indicators:

- Ratio of Following to Followers.
 - Follows many, few followers.
 - Often 4.9k following with few followers.
- # of posts low relative to age of account.
 - Few often 0 posts or
 - Only reposts.
- Beautiful young woman profile photo
- Often only the back of the woman, looking at beautiful scenery or architecture
- If uncertain scroll through the posts, and re-view their followers and if the majority are other sex bots, it is a sex bot account.
- This is the easiest bot to find.
- Bots will have a variety of camouflage including the following
 - Female sex bots
 - Male sex bots
 - Fake Account bots
 - Casino bots
 - Lottery bots
 - Crypto bots
 - NFT bots
 - Thought bots
 - African Ophanage bots
 - Pharma bots
- State, NGO & Pharma funded trolls, actual humans who manage their bots.
 - UK Brigade 77, The Mutton Crew
 - Pandas, Moai, Team Halo

Do **#DARPA**sluts like your anti vax or otherwise controversial tweets?

I am trying to get a better sense of which keywords prompt tweets to be attacked by **#DARPA**sluts so please post screen shots of

1. The Tweet & The like notification
2. The **#DARPA**slut profile

Example:

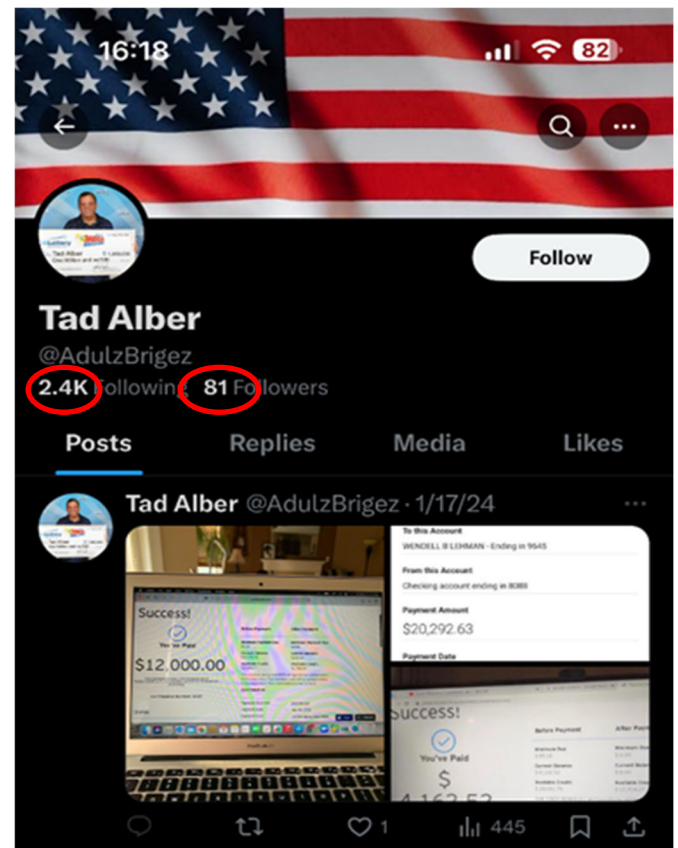

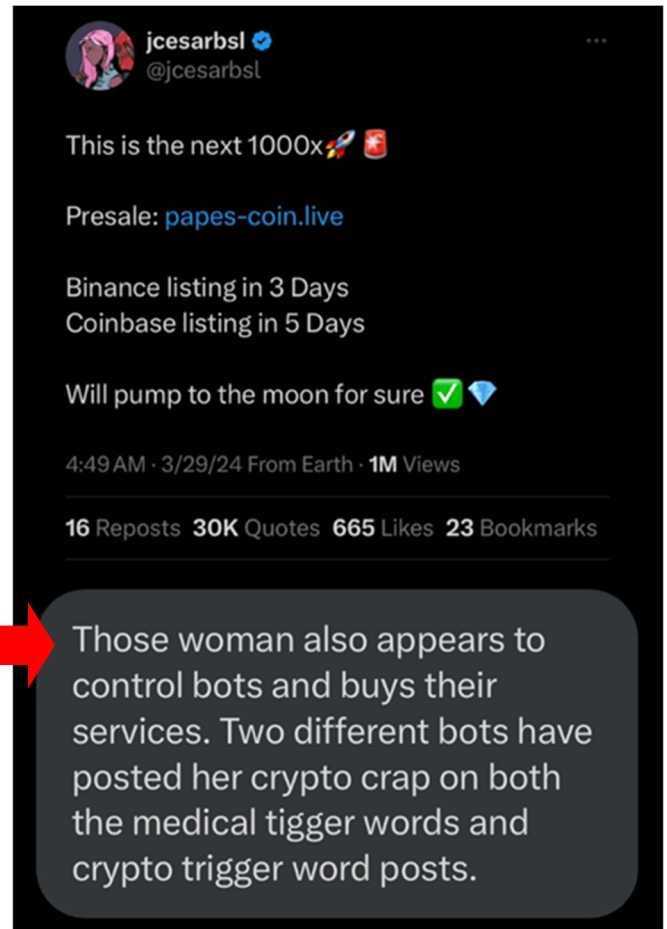

This popular sex bot is an anomaly.

But trust me, it is a sex bot or porn acct. Very popular with women and gay men.

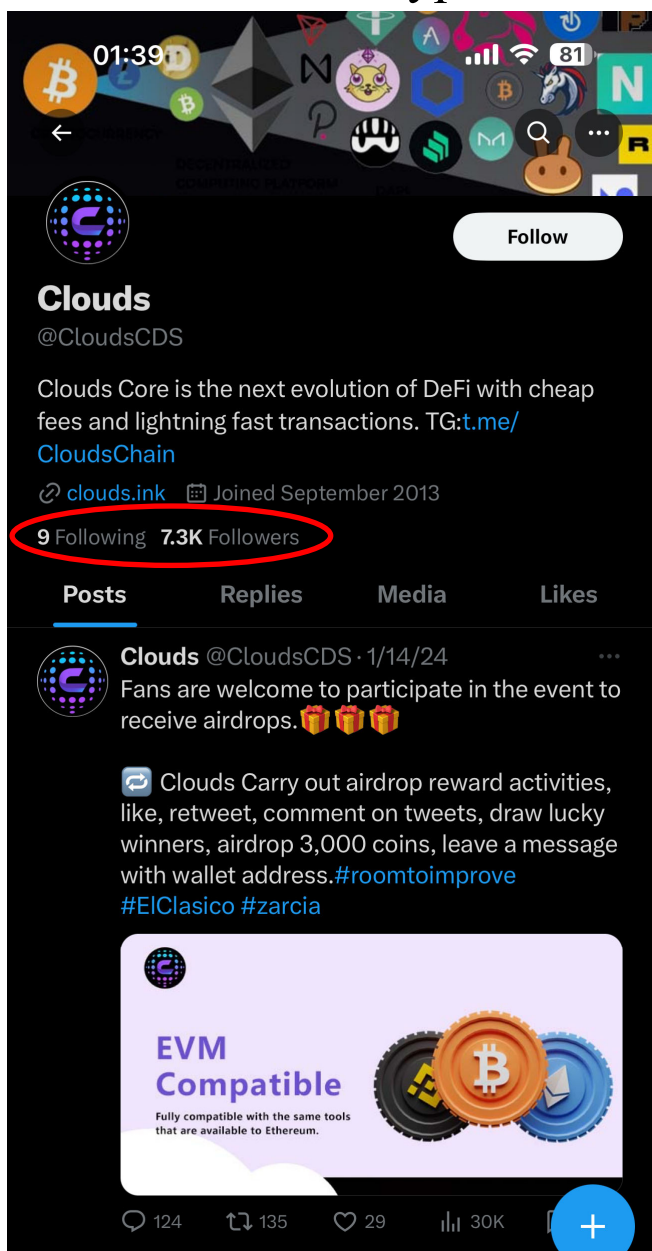

Recently Spawned Bot

Bots are nested within other bots, below is a level of nested bots.

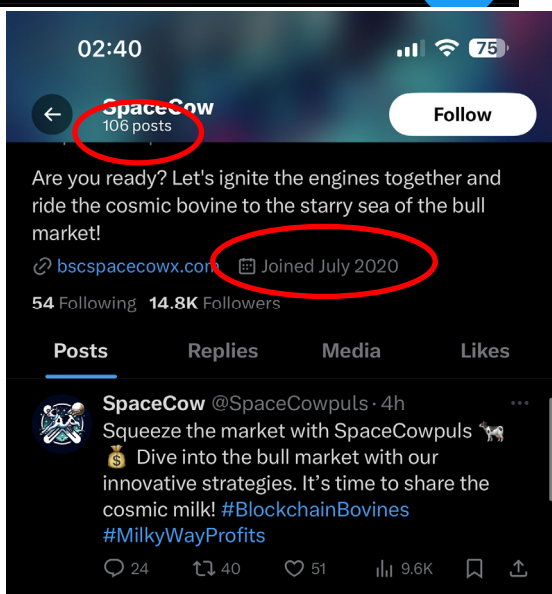

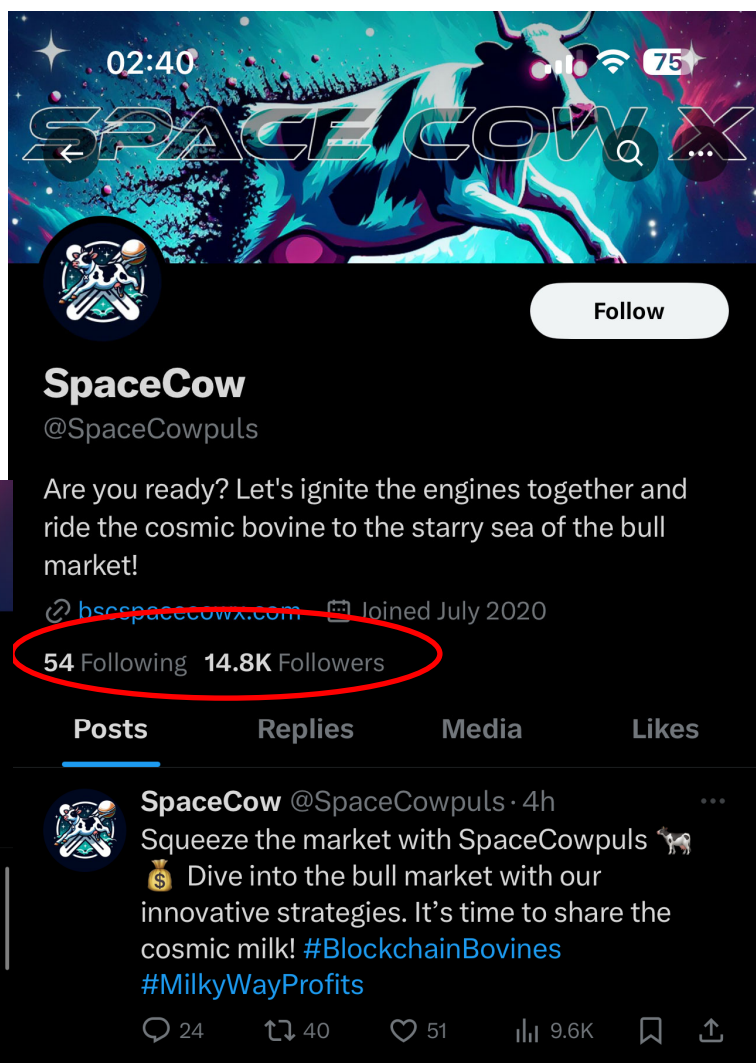

Crypto Casino Bots & Lottery Winner Bots

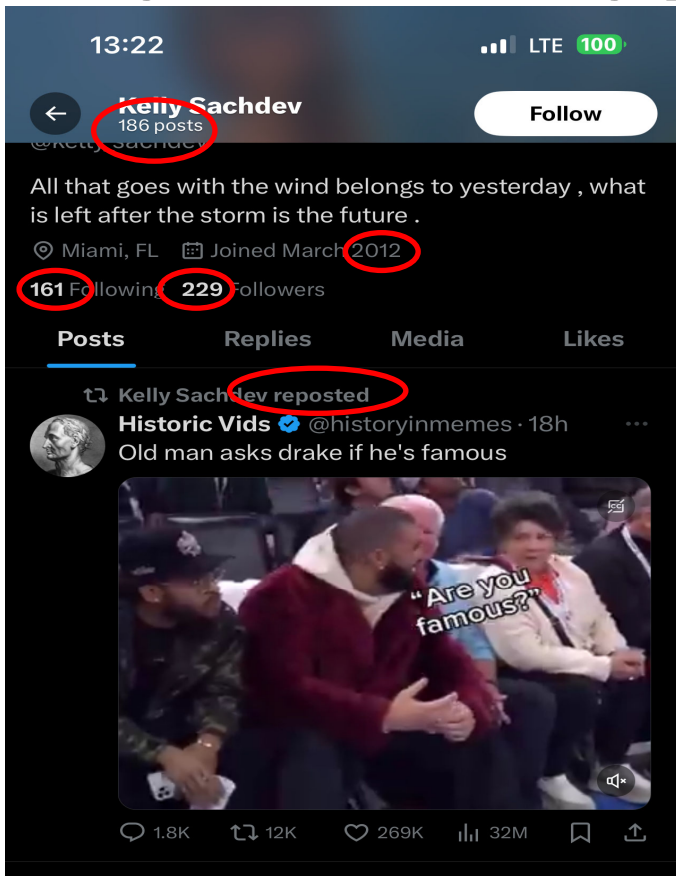

Crypto Currency Bots & NFT Bots

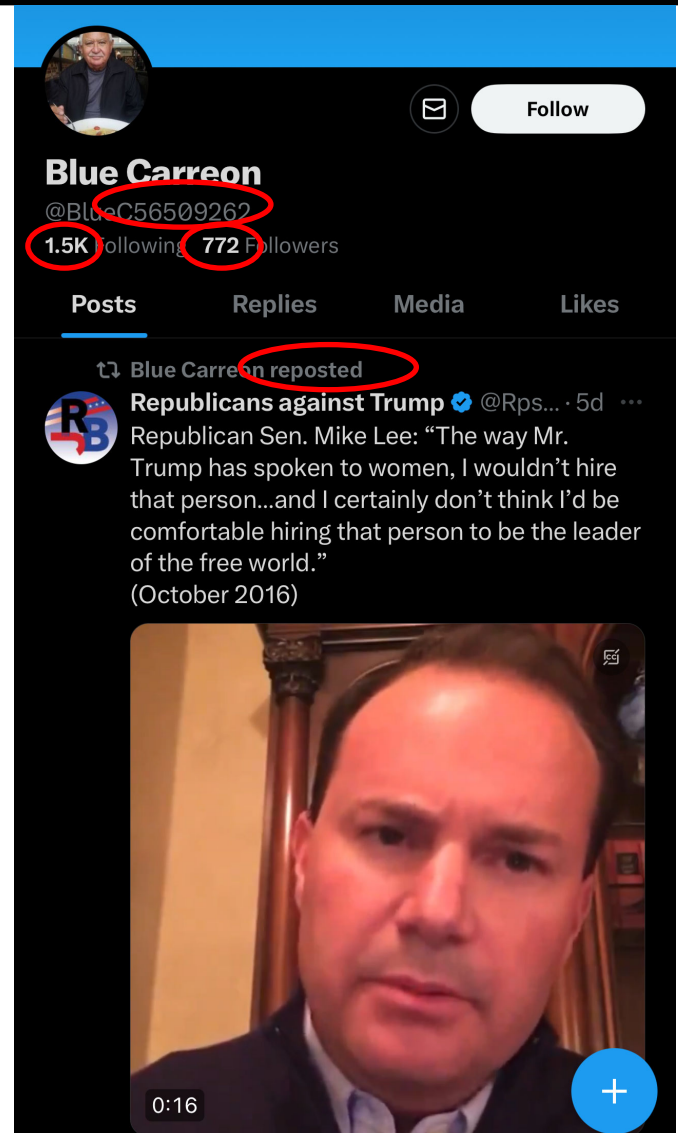

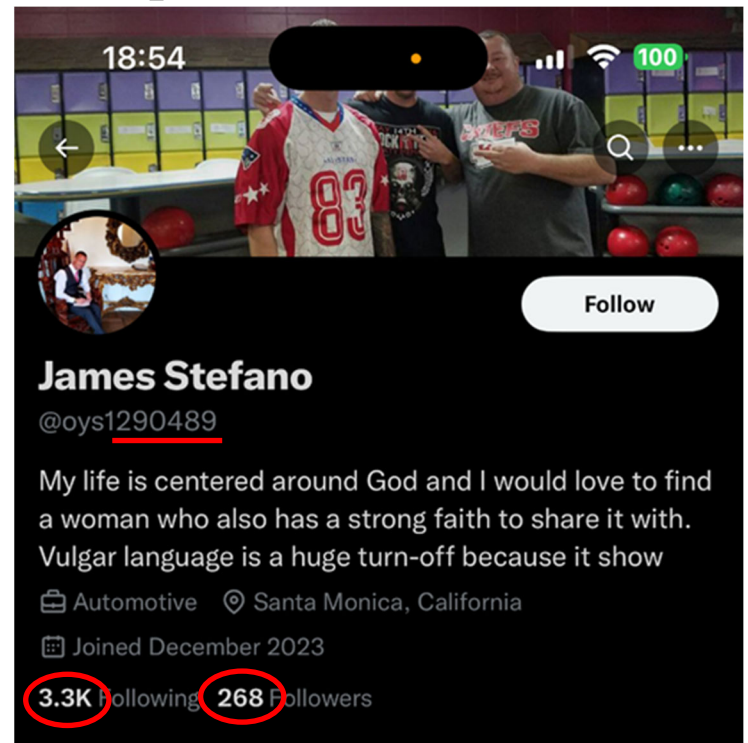

For the Crypto Bots, the following to followers does not apply, look at the age of the account and the number of posts, check followers and look for bots.

Thought bots: bots to nudge public opinion

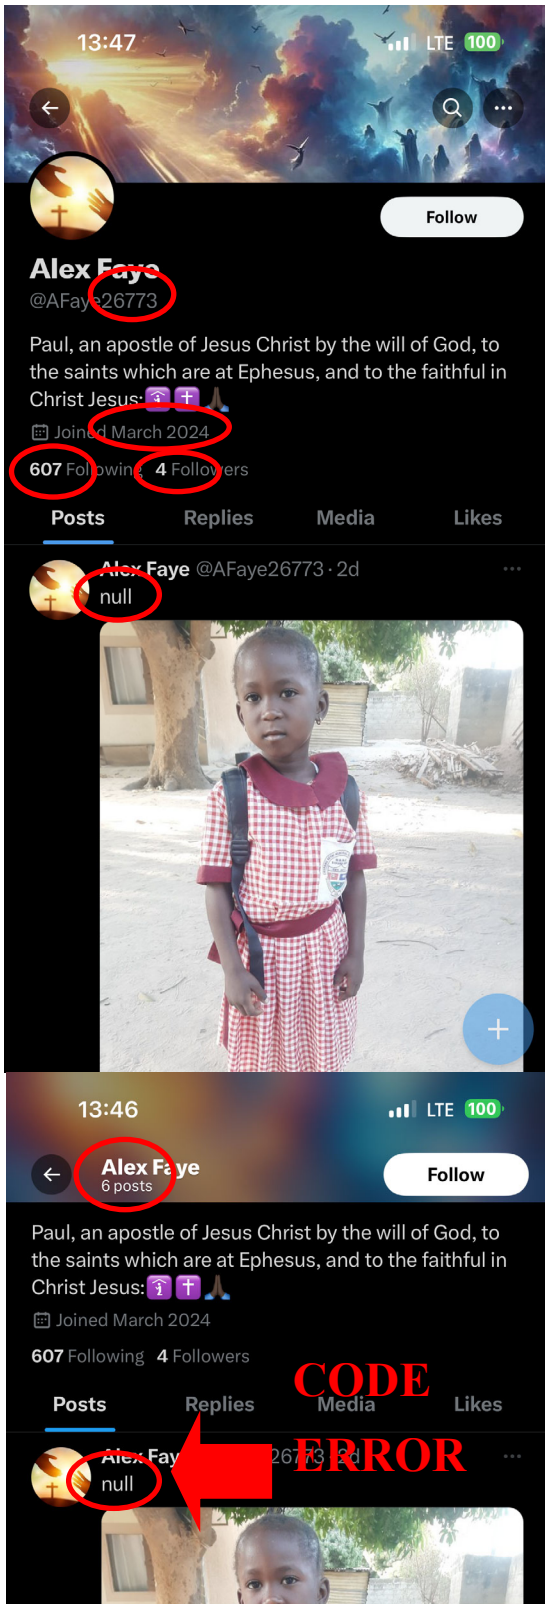

This thought bot account was created in 2012, it has 186 posts, mostly reposts, no original text posts. Spawned in 2012 and activated at a later

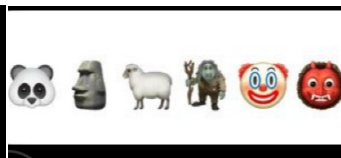

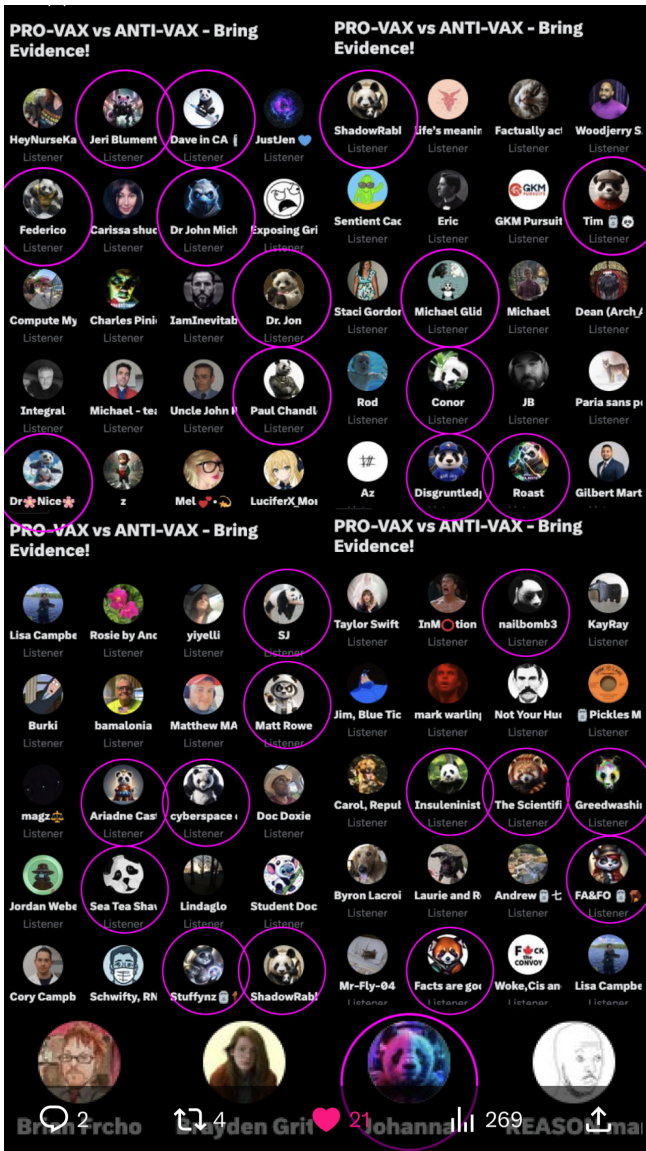

Looks like a real account, but after looking at the timeline, and # of posts relative to the age of the account indicates it is a bot.

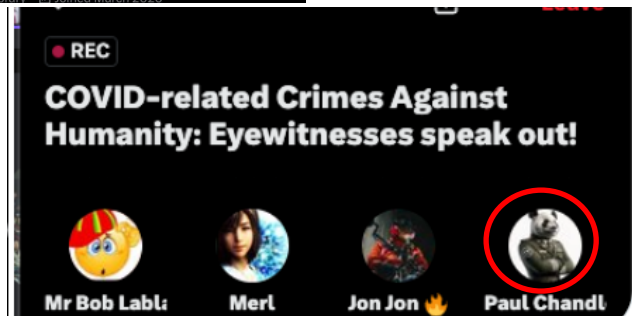

African Bots: Nigeria, Gambia, Weaponized Compassion & Sympathy

State, NGO and Pharma Funded Trolls

The Trolls will use these icons and photos in their X account name and on their profile photos.

These are not good people, they pay their bills with blood money. Their job is to slow us down.

GRAPHIC WARNING 🚨 Orlando Brown says that PANDA 🐼 is a secret "code" word amongst pedophiles where they perform a type of sodomy on children that is so horrible it hits a specific nerve causing their eyes to pop out which leaves black and blue circles that look like "Panda Eyes."

X is now being infiltrated with anonymous accounts that post sciency-sounding denials against the evidence of immune imprinting, immune switching, pathogenic priming, and they don't yet know we also still have the goods on ADE... Sorry bot-minded posers, we have a helluva jump on you. Confuzzlement strategy won't convince the masses they are protected against serious illness. @JessLovesMJK @P_McCulloughMD @DrJBhattacharya @BretWeinstein etc, etc, etc.

PRO-VAX vs ANTI-VAX - Bring Evidence!

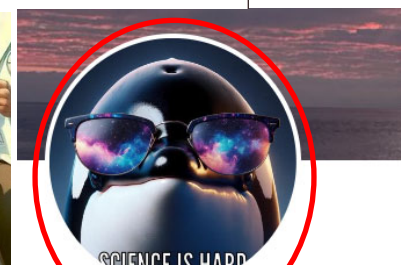

There are no “debate” spaces, these are BAIT spaces, where you account will be tagged, botted and possibly hacked with military grade hardware. That is the purpose of these spaces.

The Pandos have begun changing their camouflage to animals with sunglasses on. The Trolls will change their camo and adapt, but once the account is blocked, doesn't matter.

HOW TO BLOCK ACCOUNTS

How to Block Accounts

Block is a feature that helps you control how you interact with other accounts on X. This feature helps people

BLOCKED ACCOUNTS CANNOT

- Follow you
- View your posts when logged in on X (unless they report you, and your posts mention them)
- Find your posts in search when logged in on X
- Send Direct Messages to you
- View your following or followers lists, likes or lists when logged in on X
- View a Moment you've created when logged in on X
- View a Moment you've created when logged in on X
- Add your X account to their lists
- Add your X account to their lists
- Tag you in a photo
- posts from blocked accounts will not appear in your timeline. However, please note that you may see posts or notifications in your timeline for the following:
 - posts from others you follow that mention accounts you have blocked.
 - posts that mention you, along with an account you have blocked.

Important

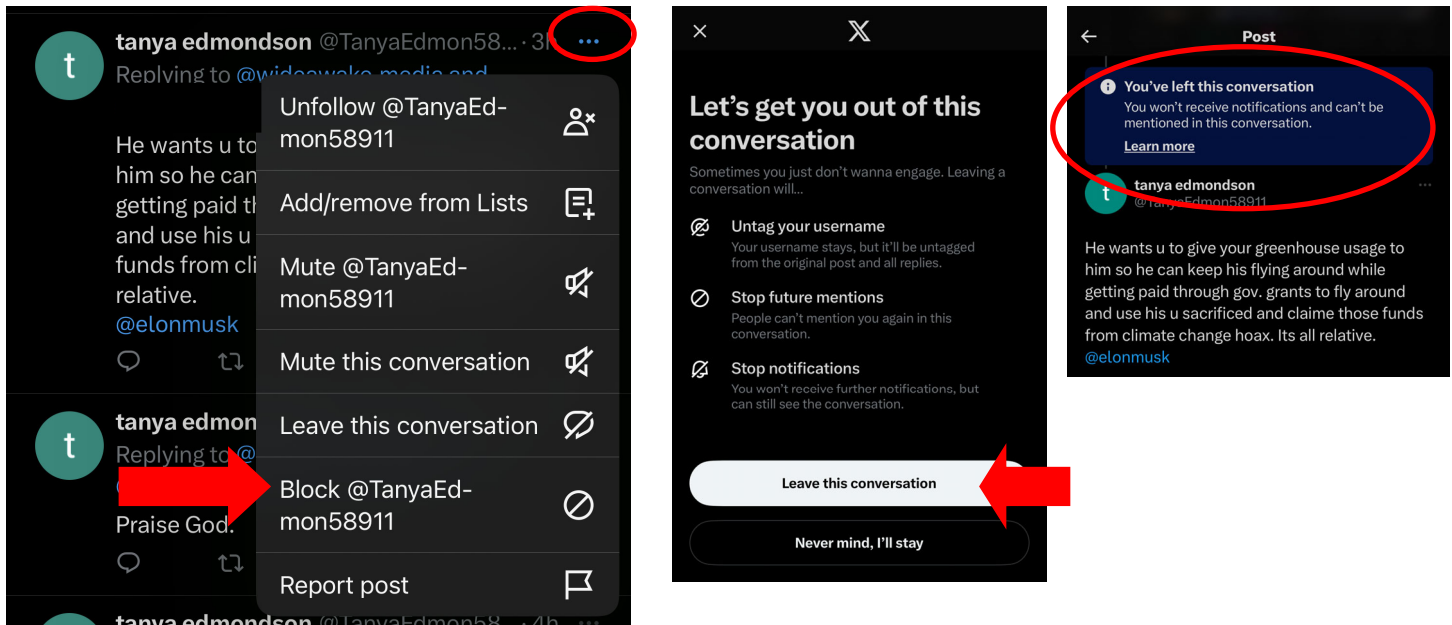

Blocking only works if the account you've blocked is logged in on X. For example, if the account you've blocked isn't logged in or is accessing X content via a third party, they may be able to see your public posts. Please keep this in mind when you choose to share content on X.

Some important things to know about block:

- Accounts you have blocked cannot follow you, and you cannot follow an account you have blocked.
- Blocking an account you are currently following will cause you to unfollow that account (and them to unfollow you). If you decide to unblock that account, you will have to follow that account again.
- Blocked accounts do not receive a notification alerting them that their account has been blocked. However, if a blocked account visits the profile of an account that has blocked them, they will see they have been blocked (unlike mute, which is invisible to muted accounts).
- If you block an account and they choose to report your account, any of your posts that directly mention them will be available for them to view and attach during the reporting process.
- You will not receive notifications from accounts you block, or accounts that you do not follow who mention you in conversations started by accounts that you block. You will, however, see notifications from accounts you follow when they mention you in a conversation started by an account you block. If you'd like to view all of your mentions, you can do so by searching your username.

How to “Leave this conversation”

Used to untag yourself from unwanted conversations you’re mentioned in.

How to leave a conversation from a conversation thread

Step 1

On the Thread, tap or click on the **...** more icon at the top right where the thread starts.

Step 2

Select **Leave this conversation**.

Step 3

You'll see a prompt that lets you know people can't mention you again in this conversation and you won't receive further notifications. To proceed, select **Leave**.

Step 4

Once you leave the conversation, your username (or "handle") link will be hidden.

Note: While no one will receive notifications once you leave a conversation, your username will be displayed differently. You won't receive further notifications and you'll still be able to view the conversation. Currently, you cannot undo the action of leaving a conversation.

Trigger Words to Avoid

Accounts with HEAPS of Followers:

If you have a lot of followers, there are apps that you can subscribe to, that will help you manage your account. One such app is called Circleboom. It will make the process easier.

Click the icon to go to their website.

Medical Freedom Movement Spaces

When people who hold spaces, whose accounts are riddled with bots and state chaos agents on their followers or following lists, the people who go to those spaces have their accounts botted too. Always have one cohost ride shotgun. A person with the chaos agents blocked, who knows how to watch the bottom row of the space for bots. This will enable your space to run smoother with fewer glitches.

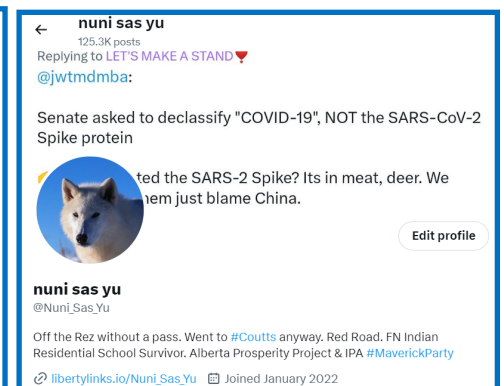

It is not X glitching your spaces, it is your Xtd riddled account. You need to treat your Xtds.

If you need someone, an Xtd Specialist to ride shotgun on your space, contact: Lyndsey, RN or Nuni Sas Yu.
